

## LIQUID NITROGEN OVERCLOCKING

[www.LiquidNitrogenOverclocking.com](http://www.LiquidNitrogenOverclocking.com)

### Vortex F6 = 5.0 GHz i7-3960X (12 processing threads)

Equivalent to **5.98 GHz**  
i7-980X performance

16 GB RAM/250 GB SSD

Windows 7 64-bit

2TB HD (second drive)

GTX-580 Video Card

18-month warranty on  
all parts and labor

**\$9000** includes all taxes  
and shipping

### Vortex F5 = 5.0 GHz i7-2700K (8 processing threads)

Equivalent to **5.67 GHz**  
i7-980X performance

16 GB RAM/250 GB SSD

Windows 7 64-bit

2TB HD (second drive)

GTX-580 Video Card

18-month warranty on  
all parts and labor

**\$7500** includes all taxes  
and shipping

The Vortex models are our top-of-the-line in performance and stability.

### Plutonium II = 5.0 GHz i7-2600K (8 processing threads)

Equivalent to **5.48 GHz**  
i7-980X performance

16 GB RAM/250 GB SSD

Windows 7 64-bit

2TB HD (second drive)

GTX-580 Video Card

18-month warranty on  
all parts and labor

**\$5500** includes all taxes  
and shipping

### Plutonium I = 5.0 GHz i5-2500K (4 processing threads)

Equivalent to **5.35 GHz**  
i7-980X performance

8 GB RAM/No SSD

Windows 7 64-bit

2TB HD (boot drive)

GTX-580 Video Card

18-month warranty on  
all parts and labor

**\$4500** includes all taxes  
and shipping

The Plutonium models offer very affordable 5.0 GHz performance.

### Monolith I = 4.6 GHz i7-3960X (12 processing threads)

Equivalent to **5.30 GHz**  
i7-980X performance

16 GB RAM/250 GB SSD

Windows 7 64-bit

2TB HD (second drive)

GTX-580 Video Card

18-month warranty on  
all parts and labor

**\$6150** includes all taxes  
and shipping

The Monolith I is rack-mountable with redundant multi-source power supplies for 24x7 uptime in "lights out" data center deployments. It can run under American, European, or German power grids with no modification.
